EXPORT AWARD

PM AWARD 2016

PM AWARD COMMITTEES

THE WINNERS
OF PRIME MINISTER'S EXPORT AWARD 2016

ABOUT PM AWARD

The Prime Minister's Export Award is proud of its achievements of over 25 years as a factor that helps drive the Thai economy.

The Prime Minister's Export Award was established in 1992 by the Ministry of Commerce, Royal Thai Government, as an honorable accolade to the country's outstanding exporters. The Award's primary objective is to invigorate Thai economy through brand creation, product development, and high quality standards in the manufacturing and service industries.

In addition, it hopes to raise competitiveness and recognition of Thai products and services on the international market. The Award aims to inspire and encourage Thai entrepreneurs to establish an international presence under Thai brand names with Thai designs. Moreover, the PM Award helps to promote a positive image of Thai organizations and the reputation of Thai products and services on a global scale.

The Prime Minister's Export Award will continue to energize Thai exporters to uphold their path to success, while raising consumer confidence in Thai products and services in the international trade arena.

PRIME MINISTER'S EXPORT AWARD

BEYOND THE SUCCESS

THAILAND 1.0 - 4.0

Thailand has gone through a series of continual economic developments and transformations, from emphasis on agriculture, to light industries, and eventually toward heavy industries, Aiming to achieve even more economic development, growth and stability, it is necessary that the economy should develop and transform further towards **"Thailand 4.0"** a "Value - Based Economy" "The emphasis placed on encouraging changes in 3 dimensions, which are the transition from "commodity" to "innovative" products, from industrialisation to technology ideas, and innovation, driven and a shift toward service industries, Therefore, **"Thailand 4.0"** is the development of new engines of economic growth by applying technological advancement, ideas, innovation, sciences, technology, research and development in our production production process so that innovative products and services with greater added value can be realised and competitive enough for the global market

The essence of economic development according to **"Thailand 4.0"**, rely on "Public-Private Collaboration" that is, the development and collaborations among private sector, financial and banking sector, and educational and research institutions with governmental support is The Prime Minister's Export Award, or the PM Award, which has been organised by the Ministry of Commerce on an annual basis, is considered an awards that tangibly reflects the success of the government in its attempts to promote and support business operators in their development of high quality product and services that add values and are outstanding enough to gain acceptance in the global market, as well as realise sustainable competitiveness in foreign markets that would realistically drive Thailand towards a status of wealth, stability and sustainability.

PRIME
MINISTER'S
EXPORT AWARD
BEYOND THE SUCCESS

PM AWARD 2016

BEYOND THE SUCCESS

The Prime Minister's Export Award has played a significant role in supporting Thai businesses to export and explore world markets with own brand names and unique designs.

Noteworthy progress has been made each year to stimulate Thai entrepreneurs to enhance their quality and standards while being environmentally conscious and sustainable. The award has always been aware of the world economic turbulence and changes that is why new categories are promoted.

The Prime Minister's Export Award serves as a quality assurance which significantly enhances their capability and paves the way to international markets with pride and confidence. The award has been supporting and guiding Thai entrepreneurs to develop their performance to reach international market.

The Prime Minister's Export Award is classified into 7 categories:

- ◆ Best Exporter
- ◆ Best Green Innovation
- ◆ Best Thai Brand
- ◆ Best Design
- ◆ Best Service Enterprise Award
- ◆ Best OTOP Export Recognition
- ◆ Best Halal

PM AWARD COMMITTEES

THE COMMITTEE

FOR PRIME MINISTER'S EXPORT AWARD 2016

The Prime Minister's Export Award is the successful collaboration between the government, the export and service sectors, and distinguished experts in related fields. The committee has worked tirelessly throughout to make judgements through a number of factory visits, and numerous meeting. There efforts have been made, to come up with truly distinguished winners.

BEST DESIGN

FOR PRIME MINISTER'S EXPORT AWARD 2016

Design Excellence Award (DEmark) was established in 2008 in order to give recognition to outstanding product design. The Department of International Trade Promotion (DITP) receives cooperation from the Japan Institute of Design Promotion (JDP) in determining the judging criteria for Demark Award of Thailand, inviting experts to be judges, and also help promote the award to be accepted in the international arena. DEmark logo is given to winners so that it can be used to promote the products.

The DEmark award winning with the highest scores in each category will receive an honorable Prime Minister's Export Award for Best Design.

Ratchadapisek Road, Din Daeng, Bangkok 10400

Tel. +662 646 7200

Website: www.khaotrachat.com

Aiming to be the world rice leader, the company has been achieving such vision through its successful rice business model as the classic full integration strategy (from farming to value added product). The concept of environment friendly, food safety and business sustainability has been practiced and imbedded into the day-to-day operations so as to serve the need of international demands.

"Royal Umbrella" rice is the product of company whose quality is improved and sold in more than 100 countries around the world under the same standard and the same brand.

Product quality state-of-the-art technology as well as the production facilities with the total volume of 1.6 million tons of rice per year, along with strong marketing & sales network worldwide, intensive & extensive brand building of "Royal Umbrella" prepacked rice including other foodstuffs are our key success factors. This product can be traceable in all processes resulting in the high quality, sustainability following to the international standards. As a result of our achievements, we received a lot of awards such as the award of Super Brand in Singapore in 2003-2013. In Thailand 2005, we received the Prime Minister's Award. In 1995, 2005, and 2011, we received the award from Department of Export Promotion, Ministry of Commerce. We received the World Best Rice Award 2009 in Philippines from the World Rice Conference 2009. Recently, we received "FDA Quality Award" in 2013 which we become the only one operator of bagged rice in Thailand on this award.

The company also builds the port for the marine transportation system directly connected to the production plant. It is the first marine transportation system of Thailand which can help in environment conservation instead of using the truck transportation. Apart from the mentioned achievements, what we believe most is "the intention to help Thai farmers to have better lives, have stable and good future". This is the challenging mission which we must achieve eventually as the phrase of "Rice is Life"

BLUE SPICE

The Blue Elephant Group has played a significant role in promoting Royal Thai Cuisine internationally for over 36 years through its famous Restaurants.

Our Master Chef and Founder of Blue Elephant Group, Nooror SOMANY-STEPPE is recognized as a leading Ambassador of Thai Cuisine since the first Blue Elephant restaurant (Brussels 1980) to nowadays. As pioneer in Europe, the Group quickly launched a trade office in Bangkok in order to supply their restaurants with the best Thai fresh ingredients.

After the opening of several Blue Elephant restaurants and the launching of their Indian brand "La Porte des Indes", the Blue Elephant Group branched out into other activities such as cooking schools and the development of a Royal Thai products line.

Reckoned to be one of the 5 best Thai Chefs in Thailand, Chef Nooror constantly sources the best raw materials locally. This is why we are using, amongst others, raw materials from the Royal Project Foundation.

The Group owns 2 production units: the FINE FOOD CATERING in Brussels (chilled and frozen ready meals and food service / inflight catering) and the BLUE SPICE in Bangkok (Thai Premium Grocery Line and Food solutions) certified GMP, HACCP and BRC.

Today both units work hand in hand to export their products to more than 30 countries.

Aeroflex Co., Ltd. is the sole world major manufacturer of thermal insulation using Ethylene Propylene Diene Methylene (EPDM) which the company invents and continually conducts research and development; this invention is guaranteed with many patents, and expanded its sales to more than 100 countries across the world.

Aeroflex's products are broadly used in order to save energy by maintaining temperature constant in air conditioning system as insulation in the air ducting system and indoor chilled water / hot water piping, and piping insulation to prevent condensation. Aeroflex's thermal insulation outclasses its competitors with capability to operate in wider range of temperature between -200°C to 125°C. The material of Aeroflex's products is also proved to be non-toxic.

Website: www.khaotrachat.com

Aiming to be the world rice leader, the company has been achieving such vision through its successful rice business model as the classic full integration strategy (from farming to value added product). The concept of environment friendly, food safety and business sustainability has been practiced and imbedded into the day-to-day operations so as to serve the need of international demands.

"Royal Umbrella" rice is the product of company whose quality is improved and sold in more than 100 countries around the world under the same standard and the same brand.

Product quality state-of-the-art technology as well as the production facilities with the total volume of 1.6 million tons of rice per year, along with strong marketing & sales network worldwide, intensive & extensive brand building of "Royal Umbrella" prepacked rice including other foodstuffs are our key success factors. This product can be traceable in all processes resulting in the high quality, sustainability following to the international standards. As a result of our achievements, we received a lot of awards such as the award of Super Brand in Singapore in 2003-2013. In Thailand 2005, we received the Prime Minister's Award. In 1995, 2005, and 2011, we received the award from Department of Export Promotion, Ministry of Commerce. We received the World Best Rice Award 2009 in Philippines from the World Rice Conference 2009. Recently, we received "FDA Quality Award" in 2013 which we become the only one operator of bagged rice in Thailand on this award.

The company also builds the port for the marine transportation system directly connected to the production plant. It is the first marine transportation system of Thailand which can help in environment conservation instead of using the track transportation. Apart from the mentioned achievements, what we believe most is "the intention to help Thai farmers to have better lives, have stable and good future". This is the challenging mission which we must achieve eventually as the phrase of "Rice is Life"

Five decades ago, Theppadungorn Coconut Co., Ltd. started from a small business on wholesale and retail sale of coconuts. With the accumulated experience and initiation of our founders, Mr. Ampol and Ms. Jareeporn Theppadungorn, the processing line for coconut milk was first established in Nakorn Pathom province in 1976.

Under the steady growth on the firm pace, Theppadungorn Coconut Co., Ltd. Is now operating by using one of the most modern technologies in the world. By using well-equipped facilities, at least 400,000 coconuts can be processed daily at the factory to produce "CHAOKOH" brand coconut milk which is the leading coconut milk product in the world. The Coconut Milk products are processed and packed in different styles such as sterilization in can, pasteurization in plastic bag and Ultra Heat Treatment (UHT) in paper-laminated box. We also produce other products form coconuts such as Coconut Milk Powder, Coconut water, Coconut Gel, Coconut Meat, Desiccated Coconut, Roasted Coconut Chip, Virgin Coconut Oil, and Canned Fruit and Vegetable Products, under brand "CHAOKOH". We also offer varieties of Thai food ingredient products under brand "MAE PLOY" such as Curry pastes, Curry Soups, Dipping Sauces, Thai Spices, Stir-Fry Sauces, and other Thai Food Ingredients.

Until today, our success has not stopped us from trying our best to serve our customers. Our growth moves together with our technology development in order to continuously improve our product's quality and varieties. Every product from Theppadungorn Coconut Co., Ltd. are therefore guarantee for their best qualities that meet the international standard and satisfaction of customer.

Email: vanachai@vanachai.com
Website: www.vanachai.com

Vanachai Group had started its business as a sawmill that has been developed to proudly become a leading manufacturer of wood-based panel, including particleboard, and MDF board, in Thailand and Asia with an ideal to conserve natural forest. Vanachai Group has contributed to the conservation of natural forest by supplying construction and furniture industries with wood-based panels as the direct substitutes for precious wood from natural forests. The raw materials came from non-productive rubber trees that were out of latex, and scheduled to be discarded.

Product quality is the highest concern for Vanachai Group. Therefore, with its quality management process as well as advanced and efficient technology deployed, all products of the Group are of high quality, compliant to standards, and meeting with customer's requirements. With its systematic delivery management system, customers can rest assured in its on-time delivery of products in perfect conditions.

Apart from its main products, Vanachai Group has also developed further with its new finished products from its main product lines to supply both local and international markets. Those include laminated flooring, finished doors, and decorative panels, etc., which are resistant to heavy impact, insects, and humidity, while flooring products with overlaying film are scratch-proof and easily cleanable.

DHA Siamwalla Ltd., a centenarian firm, established in Bangkok, Thailand, since 1907. Our general stationery manufacturing history dated back to the 1930's, and files manufacturing in particular, to the 1960's. We were the first in Asia to have in-house metal components manufacturing, and in-house plastic film extrusion for PP lining materials. Hence, while others follow, we have led and started the trend towards more economic price level for Polypropylene-based products and significantly we have improved health safety for consumers, and contributed to better care of our planet earth.

Under the same roof, we also manufacture files and binders made of rigid PP and Paper, including PP welded binders, hanging files, sheet protectors, L-shape folders, index dividers and all kind of notebooks. Our factory is located at Rojana Industrial Park where we extrude environmentally PP film with the special lever arch mechanism called "SUPER STRONG". Thanks for these two unique components, our company appears as the one which can produce the best quality and strong PP Lever arch files in the world. Our products have been distributed in Thailand under ELEPHANT brand. For international market, our products are widely acknowledged under both ELFEN and ELEPHANT brand.

DEESAWAT

Founded in 1972, Deesawat was initially an OEM manufacturer with its own sawmills producing wood flooring and Chinese-styled furniture for export. The company later evolved into one that developed products under its own brand name as "Deesawat".

The current Deesawat repertoire includes outdoor furniture, indoor furniture with outdoor perspective, contracted furniture for hotel and restaurant, wood flooring/fancy flooring, wooden doors and frames, and wood millworks as well as customized production projects for lodging industries.

The name of Deesawat is closely associated with quality as the company has been established for 45 years with well-respected reputation in its craftsmanship, wood expertise, as well as tasteful designs.

Deesawat had started designing and developing its signature products in 2004. It had won G-mark award from Japan, and it would go on winning the other 40 different design awards worldwide. It had received 3 PM awards for factory management from the Ministry of Industries, and over 10 DEmark awards in product design and green innovation from the Ministry of Commerce. Deesawat has also been awarded the Green manufacturing (gold level) from the Department of Environment.

Website: www.jlmovaltd.com

Product: Little Bulb

JL Mova specializes in coconut oil transformation for various purposes. It is also the winner of 2016 DEmark Awards under the category of Food Packaging / Health & Beauty Packaging.

Aiming to be a global player, JL Mova spent its time and efforts on researches of product usage in various conditions, and there were challenges found in the targeted markets with cold weather as coconut oil would be solidified in the cold weather with temperature of below 25 degree Celsius, and thus, cause difficulties in its usage. Consumers may have to apply heat on the bottle to liquefy it, and take risks from chemical substances released from plastic bottle in the heat.

With BoonBoon Little Bulb, such difficulties and problems had been resolved by innovative idea that could facilitate its usage even when the coconut oil was solidified. JL Mova had reinvented the new concept of packaging for coconut oil in the shape of the light bulb, and especially with its double-lid technique. As such, the package can help ease the usage of the coconut oil to the last drop in whatever state it took, while materials used are 100% toxic-free as they were made of silicone of the same grade as bottle nipples for babies. Such materials can withstand the heat up to 200 degree Celsius, therefore, it would be safe even when heat is applied.

Email: internationalmarketing@sonitesurfaces.com

Website: www.sonitesurfaces.com

Product: Husk Collection

Sonite designs and produces distinctive surface coverings, including the industry's most diverse range of innovative mosaics. By pairing considerable ingenuity with advanced technologies, Sonite extends the creative limits of surface and interior design.

Sonite materials are significantly thinner and lighter than conventional glass and ceramic options, making for easy application on walls, ceilings, countertops and other surfaces including edged and curved areas. They likewise firmly adhere to most substrates including glass, gypsum board, wood and cement. The materials' composition, moreover, allows for installation using conventional thinset adhesive mortars. Moisture resistance furthermore makes Sonite surfaces ideal for bathrooms, spa facilities, indoor swimming pools as well as covered outdoor areas. Husk Collection

Created with discarded outer shells from rice milling, Sonite's new Husk mosaics and solid surfaces incorporate nearly one-fourth recycled agricultural waste. The collection's advanced

bio-composite design yields coverings not only beautiful but also highly durable and extraordinarily lightweight – all traits for which Sonite materials are renowned. Husk is available in four organic tones, each striking an ideal balance between natural warmth and contemporary chic.

Bamboo Wickerworks of Phanat Nikhom was evolved from local wisdom and native creativity. The district has legendary of weaving skills from Thai, Lao, and Chinese heritage craftsman. Aside from farming, villagers make variety of bamboo housewares and introduce bamboo products to local vendors and markets. In 1978, the project of Her Majesty Queen Sirikit's SUPPORT Foundation reached Phanat Nikhom to preserve weaving technique skills. The objectives aim to conserve extraordinary folk arts and crafts passing on generations and to promote better quality of life. Mrs. Pranee Borriboon, as wife of the town's mayor, embraced the project and established weaving workshop at her own residence. She put all her effort into searching out and gathering up the community's traditional expertise in wicker-weaving. Present, The project under her son management, Komkrit has continuously promoted talented artisans and developed exquisite bamboo wickerwork. The Traditional Bamboo Handicraft Center opens for visitors to explore the artistic delicacy of weaving process and the beauty of bamboo craft.

Website: www.baanceladon.com

'Baan Celadon' was initiated in 1989 by Miss Kanda Kanjanakorn, who was a visionary leader, determining to carry on Lanna Thai traditional as well as Thai method of Celadon production by maintaining the handmade procedures which is soon being replaced by machines. Later on, handmade process has been developed to add more value to products and to make celadon more interesting. Hand carved and hand painted with lively designs characterizing on Thainess by Baan Celadon have then become well known to all the tourists and people around the world.
