

P PRIME
MINISTER'S
EXPORT AWARD 2018

LEADING THE WAY

MESSAGE

FROM THE PRIME MINISTER

(Prayut Chan-o-cha)
Prime Minister
of the Kingdom of Thailand

I am delighted for this opportunity to congratulate all the outstanding entrepreneurs who have received the Prime Minister's Export Award this year. Your achievements attest to your excellence in quality, standards, innovation, and good governance, which are the key elements for a strong and competitive Thai export sector in the 21st century.

For many decades and through many changes in the global economy, Thailand's export sector has remained resilient and brought much prosperity to the Thai people. As a country with abundant natural resources, a strategic location, and human capital with high potential, Thailand has been a major destination for international trade and investment, thus contributing to our industrial development and an export sector that has been able to reach all corners of the world. Now in a highly competitive and technology driven global market, it is essential for the Thai export sector to maintain and develop this competitive edge. Therefore, the Royal Thai Government has been committed to a number of initiatives that include policy and administrative reforms to facilitate business and investment, a 20-year National Strategy to ensure the continuity of social and economic development, and the *Thailand 4.0* policy to promote creativity, innovation and technology as the key features of our commerce and industry. Vital to this has also been sustained collaboration with the private sector, so that all sectors of our economy can enjoy growth and development, which are the foundations for a new era of prosperity that leaves no one behind.

To underscore the importance of this relationship, the Prime Minister's Export Award Ceremony is held to recognise the achievements of Thailand's finest entrepreneurs who have set the bar, and will be an example for many others in product and service excellence, not to mention the highest environmental and safety standards. In this regard, I take this opportunity to extend to the Thai export sector my congratulations for your contributions to the Thai economy and the well-being of all Thai citizens, and my best wishes for your continued success.

MESSAGE

FROM THE MINISTER OF COMMERCE

A handwritten signature in black ink, appearing to read 'Sontirat'.

(Sontirat Sontijirawong)
Minister of Commerce

The Ministry of Commerce maintains 2 primary roles: develop business in both goods and services in the country and promote Thai products to international market, driving the Thai economy in terms of stability, prosperity and sustainability. Our strategic plan is to proactively build domestic trade opportunities connecting the digital economy which is in line with the current world economic trend. The Government supports Thai entrepreneurs to think creatively and adopt suitable technology to create value into their products and services. These will develop and drive E-market Place under the Thailand 4.0 policy. Moreover, it will help reduce production cost and quickly open up new markets. With the continuous support and proper opportunity given, Thai entrepreneurs can apply their production skills and expertise to maintain an environmentally friendly and distinctively Thai identity.

The Prime Minister's Export Award 2018, offered to leading exporters reflects the potential and competitiveness of Thai entrepreneurs which has gained acceptance internationally. The Ministry of Commerce is proud to say that these entrepreneurs are an essential part of our country's economy driving us forward and beyond.

I would like to congratulate the winning exporters awarded in all 7 categories of the Prime Minister's Export Awards this year. These awards show great success in your business. We hope that it will give you pride, remind you to maintain excellent quality and motivate you to develop products and services which set a remarkable example for the rest of the industry to follow. Also, I would like to thank the Department of International Trade Promotion, which has been diligently supporting Thai entrepreneurs and open up opportunities for them to demonstrate their capability which leads to continuous self-development both for the present and into the future.

MESSAGE

FROM THE DEPUTY MINISTER OF COMMERCE

Chutima Bunyapraphasara

(Chutima Bunyapraphasara)
Deputy Minister of Commerce

Thailand's economy, driven by exports, continues to grow rapidly. The strength of export sector is partly a result of strong Thai SMEs capability in terms of branding, innovative and distinct Thai product design that has become a rising star and well-recognised in the global market. The Ministry of Commerce has been committed to improve and strengthen the local economy which is also in line with the National Strategic Plan to advance the Thai economy in a stable manner. These efforts will serve as a foundation for a sustainable economy in Thailand from local to international levels.

The Government has a strong intention to support Thai exporters by initiating an award scheme as a platform to improve competitiveness of their products and services. Therefore, the Prime Minister's Award 2018 is given to honour and recognize your successful business operation as top Thai exporters which could be regarded as the driving force and key contribution to the Thai economy.

I hope that this prestige PM Award will bring you pride, underlying your success in achieving your business goal. Furthermore, I very much hope that all Thai exporters will maintain the quality and standards of products and services in their path to excellence as this will in turn help boosting export growth as well as promoting economic stability for the country.

THE WINNERS
OF PRIME MINISTER'S EXPORT AWARD 2018

ABOUT THE AWARD

The Prime Minister's Export Award is proud of its achievements of over 27 years as a factor that helps drive the Thai economy.

The Prime Minister's Export Award was established in 1992 by the Ministry of Commerce, Royal Thai Government, as an honorable accolade to the country's outstanding exporters. The Award's primary objective is to invigorate Thai economy through brand creation, product development, and high quality standards in the manufacturing and service industries.

In addition, it hopes to raise competitiveness and recognition of Thai products and services on the international market. The Award aims to inspire and encourage Thai entrepreneurs to establish an international presence under Thai brand names with Thai designs. Moreover, the PM Award helps to promote a positive image of Thai organizations and the reputation of Thai products and services on a global scale.

The Prime Minister's Export Award will continue to energize Thai exporters to uphold their path to success, while raising consumer condence Thai products and services in the international trade arena.

PRIME MINISTER'S EXPORT AWARD 2018

LEADING THE WAY

PM AWARD COMMITTEES

THE EXECUTIVE COMMITTEE

FOR PRIME MINISTER'S EXPORT AWARD 2018

The Prime Minister's Export Award is the successful collaboration between the government, export and service sectors, and distinguished experts in related fields. The committee has worked tirelessly throughout to make judgements through a number of factory visits, and numerous meeting. Their efforts have been made, to come up with truly distinguished winners.

BEST DESIGN COMMITTEE

FOR PRIME MINISTER'S EXPORT AWARD 2018

Furniture

Design Excellence Award (DEmark) was established in 2008 in order to give recognition to outstanding product design. The Department of International Trade Promotion (DITP) receives cooperation from the Japan Institute of Design Promotion (JDP) in determining the judging criteria for DEmark Award of Thailand, inviting experts to be judges, and also help promote the award to be accepted in the international arena. DEmark logo is given to winners so that it can be used to promote the products.

The DEmark award winners with the highest scores in each category will receive an honorable Prime Minister's Export Award for Best Design.

AEROFLEX closed cell tube and sheet insulation is a flexible and lightweight elastomeric material designed for insulating liquid cooling and heating pipelines.

The closed cell structure of Aeroflex provides many advantages over most rigid

insulations such as:

- Services Temperature -57°C to 125°C
- Moisture and vapor resistance without using additional vapor barriers.
- Stable thermal conductivity (K. value) throughout service life, due to its dense surface skin and closed cell characteristics.
- Will not melt nor drip flaming ball, therefore, it will not cause flame transfer
- Flexibility which makes installation work easy and neat. Outstanding ultraviolet and weather resistance.
- Non HCN, Non Nitrosamine and CFCs Free - Ozone friendly Product

มูลนิธิแม่ฟ้าหลวง
Mae Fah Luang Foundation

The DoiTung brand is a social enterprise by the Mae Fah Luang Foundation under Royal Patronage, which was set up approximately 30 years ago by HRH Princess Srinagarindra, the Princess Mother, to carry out economic and social development work for hill tribe communities using the Sustainable Alternative Livelihood Development (SALD) approach. Its flagship project, the Doi Tung Development Project, was initiated in 1987 to provide an alternative livelihood for the ethnic villagers of Doi Tung, Chiang Rai Province, who once relied on drug cultivation and trafficking to survive. The project has also helped reforest the hills and preserve the environment as well as the local cultural heritage. A participatory approach ensures that the villagers are involved in every step of the process, and creates empowerment that will lead to sustainability. Their innate skills and craftsmanship are identified to create product lines for the brand, such as textile weaving, ceramics and mulberry paper that are enhanced with creative design, technological innovation and selected raw materials to produce high quality products based on the values of sustainability.

Cyberprint Group Co., Ltd.

30/91,100 Mu 1 Sinsakhon Printing and Packing Industrial Estate,
Samutsakhon

Tel: +662 641 9135-8 / E-mail: info@cyberprint.co.th

Founded in 1963, CyberPrint Group Co., Ltd. has been providing print production services to export and domestic markets for decades. The successful establishment as one of the leading companies in printing industry of the region is a result of the continuous investments in numerous major occasions.

The constant development of the company's production facilities, under the profound experienced and industrious management, has always been responsive to market requirements.

With the printing systems ranging from Conventional Offset, Digital Offset, Large-Format Inkjet to Gravure printing, CyberPrint Group offers to the clients high quality and wide-range production of publication, promotional displays, POS materials, paper and flexible packaging with relatively low minimum order quantity.

This allows CyberPrint Group to be capable of supporting SME clients, who prefer to soft-launch new products with humble quantities, as well as corporate clients whose quantities requirements are as large as millions.

CyberPrint Group Co., Ltd. is certified by ISO9001: 2015 and ISO14001: 2015, and to be certified by BRC IOP v.5 early 2019.

Website: www.phutawanshop.com,

www.facebook.com/phutawan.official

Email: phutawanofficial@gmail.com

Founded in 2001, Phutawan started with a keen interest in medicinal plants of Thailand and organic, natural local ingredients. They started by experimenting with hot and cold soap making techniques and tried different mixtures and ingredients to make soaps that suited the needs of their friends and family. Word spread and people loved their soaps and it became so popular that it turned into their family business and they not only manufactured, but opened their first retail market space. In 2002 making them the first producers of this kind of product in their native Samut Prakan province.

In the years that followed until today, they have adhered to one ideology which is to deliver the best products from the best purest ingredients that nature has to offer. From its conception, Phutawan has developed more than 300 different quality products which do not contain chemicals that harm the skin, has adhered to the GMP, has had extensive growth in the domestic and international markets and is still a family owned and run business which strives to innovate and create the best organic, natural products for their family and yours.

Thailand

Tel: 064-989-7897 / Website: <http://www.kiengmool.com>

Email: chatchai@kiengmool.org

Facebook: <https://www.facebook.com/pg/Kiengmool/shop>

Kiengmool produces and sells the high quality Health related Personal-care and Household products made mainly from Charcoal and Wood-Vinegar in the variety of the categories under brands Kiengmool and Charvite for Europe markets.

KIENGMOOL BAMBOO CHARCOAL derives from slowly burning and baking in the Iwate furnace at the temperature between 1,000°C to 1,200°C which creates more effective odor-absorption than other charcoals.

KIENGMOOL WOOD VINEGAR is an organic agricultural product derived as a by-product from the smoke of charcoal making process. Due to carbonization and condensation process inside the Iwate furnace chamber. The process employs varying heats (burning at 800°C-1,200°C and cooling down at 80-150°C) to generate distilled water droplets. This is Kiengmool wood vinegar that contains pure natural goodies in providing several beneficial features such as ability to get rid of ants, cockroaches, fleas, ticks and control diseases and pests, to increase microbes, and to facilitate root growth. Our products categories are;

Home-Care: Deodorant Charcoal, Wood-Vinegar Insect repellent spray, Wood-Vinegar Insect repellent spray for Pet, Wood-Vinegar Insect repellent spray for Plant and Gardening, Floor Clean (wood-vinegar formula), Liquid Dish-washing (charcoal and wood-vinegar formula), Bathroom Toilet Wood-Vinegar Odor Eliminator; Personal-Care: Charcoal Soap, Wood-Vinegar Soap, Mosquito repellent spray (wood-vinegar formula), Mosquito repellent lotion (wood-vinegar formula).

"All Coco" is literally a brand for "all the best coconut experience". We offer the best quality products made from premium NAM HOM coconuts, delicately and specifically planted in the ideal climate of four provinces in Central Thailand which are Samutsakorn, Samutsongkarn, Nakhonpatom, and Radchaburi. Indeed, all the raw materials are supplied by our subsidiary called "K-Fresh", one of the world's largest producers and exporters of aromatic, young, fresh, USDA organic-certified NAM HOM coconuts to over 30 countries around the world. "All Coco" also give our energetic effort to ensure that our products are nature – like and so called originality of NAM HOM raw materials, through our overwhelming passion and local expertise. We initiate and develop a variety of creative, healthy and non-dairy coconut-related products that preserve the freshness, fragrance, and natural sweetness of NAM HOM coconuts, without any addition of coconut milk. Today, we serve more and more of coconut lovers via fast-growing café and shops in Thailand, South Korea, United State, and Singapore. We strive to bring this local "All Coco" brand and its creative NAM HOM products to indulge global consumers in the near future. we have set our own target to bring this local "All Coco" brand and its creative NAM HOM products to indulge global consumers.
