

# **P** PRIME MINISTER'S EXPORT AWARD 2023

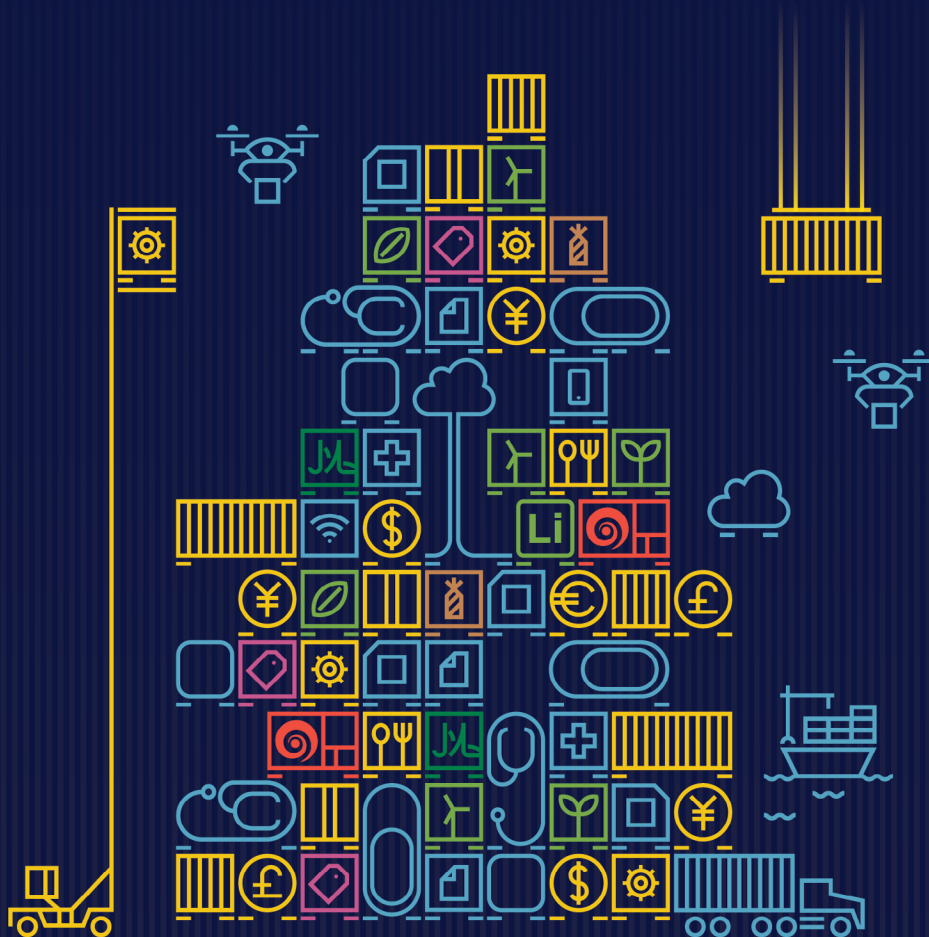

Organized by

Ministry of Commerce  
Royal Thai Government

**DITP**

Department of International Trade Promotion  
Ministry of Commerce, THAILAND

## BETTER VISION BRIGHTER FUTURE

## ABOUT THE AWARD

The Prime Minister's Export Award is proud of its achievements of over 31 years as a factor that has helped drive the Thai economy.

The Prime Minister's Export Award was established in 1992 by the Ministry of Commerce, Royal Thai Government, as an honorable accolade to the country's outstanding exporters. The Award's primary objective is to invigorate the Thai economy through brand development, and high quality standards in the manufacturing and service industries.

It hopes to raise competitiveness recognition of Thai products and service in the international market. The Award aims to inspire and encourage Thai entrepreneurs to establish an international presence under Thai brands and Thai designs. Moreover, the PM Award helps to promote a positive image of Thai Companies as well as the reputation of Thai products and services on a global scale.

The Prime Minister's Export Award will continue to bolster Thai exporters on their path to success, while raising consumer confidence in Thai products and services in the international trade arena.

# 7

**BEST BCG EXPORTER**

*Best Innovation → Best BCG Exporter*

THE PRIME MINISTER'S EXPORT AWARD 2023

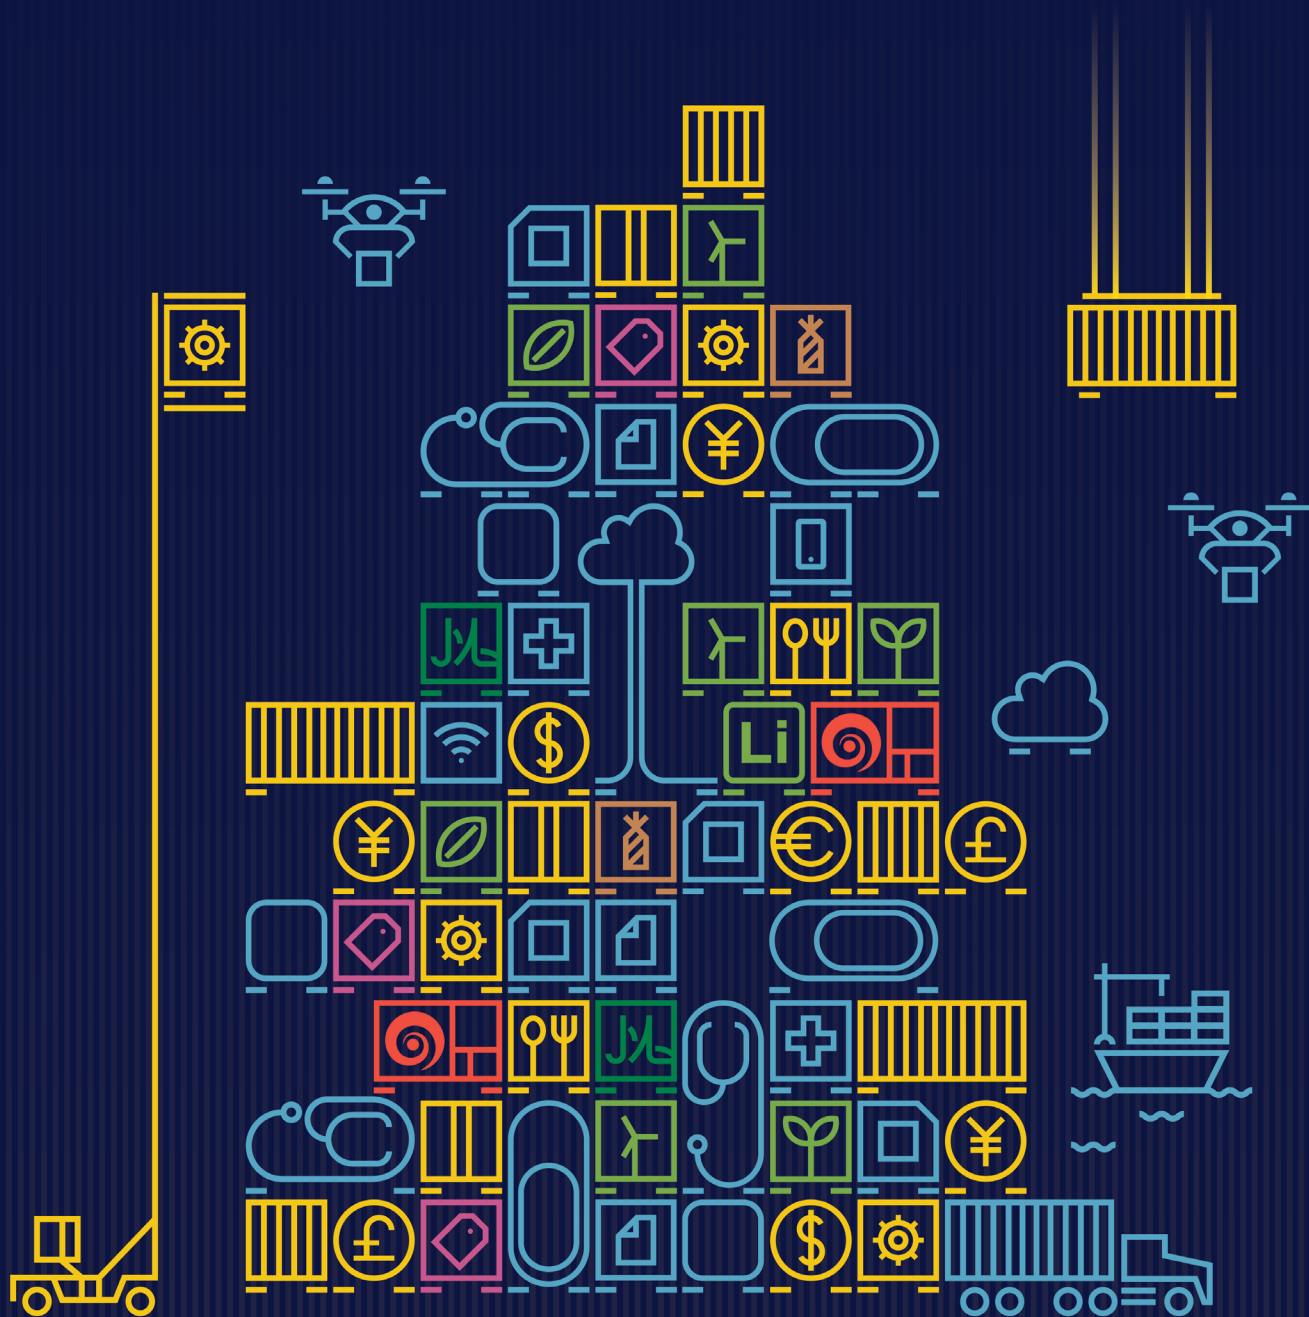

" BETTER  
VISION  
BRIGHTER  
FUTURE "

# BETTER VISION BRIGHTER FUTURE

With global economic crisis, Thai entrepreneurs need to respond to the New Economy models, which are driven by technologies and innovations, especially the BCG Economy, in order to meet market demands and the UN's Sustainable Development Goals (SDGs). The Prime Minister's Export Award is an honorable award representing Thai export sectors' reliability, owing to their internationally recognized production process and management standards, which reflects their capabilities to face new challenges. They can also become role models for other entrepreneurs.

Under the theme "Better Vision Brighter Future", Thailand Prime Minister's Export Award 2023 aims to inspire new entrepreneurs to become exporters. After its three-decade journey, 798 prizes were presented to 257 companies. This year, the award honours the visionary towards the New Economy in 5 aspects: innovation and technology; design and creativity; branding and value creation; BCG-oriented development; and SDGs. These aspects have been used to develop and adjust guidelines to select winners for all seven categories. Additionally, it seeks for new generations of entrepreneurs, Micro and SMEs, who can to express their vision and business philosophies regarding BCG and SDGs concept. With the award, DITP believes that this will not only build national competitiveness, but also increase the number of new exporters.

# THE EXECUTIVE COMMITTEES

The Prime Minister's Export Award is a successful collaboration between the government, the private sectors in export and service and distinguished experts in related fields. The committee has worked tirelessly throughout to make judgements through a number of factory visits, and numerous meetings. Their efforts have been made to come up with truly distinguished winners.

# BEST BCG EXPORTER COMMITTEES

## BEST BCG EXPORTER

The PM Best BCG Exporter Award honours entrepreneurs who operate their businesses under the BCG Economy, which covers three areas: bio-economy, circular economy, and green economy. This award is given to entrepreneurs with outstanding sustainable business operations where all stakeholders are considered in good corporate governance, and economic growth contributes to creating a positive impact on society and the environment.

# BEST DESIGN COMMITTEES

**Design Excellence Award (DEmark)** was established in 2008 in order to give recognition to outstanding product design. The Department of International Trade Promotion (DITP) receives cooperation from the Japan Institute of Design Promotion (JDP) in determining the judging criteria for DEmark Award of Thailand, inviting experts to be judges, and also help promote the award to be accepted in the international arena. DEmark logo is given to winners so that it can be used to promote the products. The DEmark award winners with the highest scores in each category will receive an honorable Prime Minister's Export Award for Best Design.

Termnature Industry is a leading snack manufacturer in Thailand that is committed to create tasty, healthful snacks from premium naturally produced ingredients. With our experienced team and GMP, HACCP, Halal, and FSSC 22000 certifications, customers can count on us for high quality, excellent value, and great flavor.

At Termnature, we use only the finest quality and 100% natural ingredients in our production process to create tasty flavors. We work closely with small farmholders in rural Thailand to provide our customers with premium organic and non GMO products. Inspired by Thailand's most important crop, RICE, our debut products are made from various types of rice namely brown jasmine rice, riceberry rice, etc.

To date, Termnature Industry has offered a wide range of snack products including rice based snacks, puffs, protein chips, breakfast cereal, rice ball, fried chips (veggies/ potato), vacuum fried veggies etc. under our own brand, GRINNY and O-PUFF, as well as under OEM services. In addition to adult snack products, we also supply baby snack including baby puffs, baby teethers, baby breakfast cereals, etc.

For the OEM services, we offer ONE STOP private label services, starting from product development to production to packaging. At Termnature, we can customize and tailor snack products according to our clients' preferences.

From the original business that has been making furniture for a long time, Until the outbreak of Covid The job was greatly reduced. And it was noticed that local fruit growers were also affected. Even though the company faces problems, it does not have a policy to reduce personnel because "the company must survive. Employees must survive." Thailand is a world-renowned fruit country. But the problem of falling fruit prices repeat every year. We therefore began to develop jams from local fruits using food innovation. and provide value to customers with different flavors, no added sugar, low sodium. By focusing on selected tropical and

organic fruits at a purchase price from farmers above the market price under the concept of "Thai jam from local to global" in order to maintain employment and help farmers in the community.

"Im JAI" is committed to receiving international standard certifications FDA, GHPs Codex, HACCP Codex, Halal Natural and Green Industry certification. We use resources wisely and consider the highest benefits. Our employees are 100% local, regardless of gender or religion. We have are LGBTQ because we believe that "Diversity is the color of entertainment. It's not an obstacle to work."

moonler<sup>®</sup>

Moonler is a contemporary furniture designing brand, under Moonler Collection Co., Ltd. a renowned manufacturer and exporter of premium quality Chamchuri wood furniture. The company is situated in the woodland mountainous area of Doi Saket, Chiang Mai, Thailand and was founded in 2008 by an engineer Phuwanat Damrongporn, who through his passion about the local craftsmanship has interpreted precious wisdom and presented it to the wider world.

Over a decade, a modest workshop with a handful of craft people has expanded into a much wider workspace with high-performance tools and machines dealing with heat treatment, woodwork, metal work, eco-friendly paintwork, and showroom. Collaboration with local and international designers continues to enhance the furniture crafted by exceptional Thai craftspeople.

Based on the concept of "Timeless wisdom, to uplift your life and spirit", we commit to promoting the local community's occupations, wood crafting culture, and income. Through our work, the disappearing traditional crafts are restored and brought back to be a meaningful part of our daily life.

The Company is committed to maintaining and developing world-class product quality standards for its products. Our quality management and control team carries out each step of production. They start from purchasing to inspecting raw materials and quality control during production until transportation.

Canned sweet corn is ready to eat or cooked to your special meal. Our sweet corns are from 100% super sweet corn in northern Thailand and grown using best agricultural practices. After harvest, the corn processes within 24 hours for all products.

The corporation embraces principles of supply chain management to increase business competitiveness, leadership within the expansion of sweet corn enterprise, construct marketing and manufacturing networks in global markets, concentrate on long-term and enduring relationships with business partners. The corporation has systematically collaborated with all sectors in supply chain management.

The process is governed from acquisition of raw materials, whereby the Company has entered into a purchase-sale contract for sweet corn under Contract Farming with farmers and brokers to instill confidence for farmers in terms of pricing, manages and oversees throughout the planting process to harvesting to manage risks related to consistency of quantity, quality of sweet corn raw materials, and plans production to comply with the raw materials imported. For our production line, the Company utilizes machinery and new technology to help reduce costs, reduce production waste, and increase productivity according to the delivery plan, including managing waste from the process to be variable, such as husk and corncobs which from the production process will be sold to dairy farmers, and waste water from the production process to be supplied to the biogas production system to produce electricity for use in factories and distribute to the Electricity Authority, preventing an impact to the environment and surrounding communities, including building an economy within the community.

We are continuously developing and innovating plastic packaging that can be able to conserve and protect the environment such as packaging that can decompose naturally or 100% recyclable in recycling facilities. Our research team also develops the mixing of recycled plastic pellets into our production formulas which will help reduce the use of world's virgin resources. Further reducing of the use of new resources shows our utmost social responsibility to our environment which definitely plays an important role in solving global warming issues we are currently facing day to day.

As a flexible plastic packaging manufacturer, TPN FlexPak Co., Ltd. is dedicated in applying ESG (Environment, Social, Governance) platform. The driving force of our network is to lead the business on the basis of production that help protects the environment, be a constant socially responsible and as an organization that maintains good governance in business operations to maintain and achieve our goal as a trusted sustainable packaging manufacturer.

Both our supplier and customers are joining together in moving towards SDGs(Sustainable Development Goals) by always working on sustainable raw materials solutions in developing and innovating a more Sustainable Flexible Packaging of the future.

TPN FlexPak Co., Ltd. integrated the BCG concept into the organization on each process of our operations both MAN, MACHINE, METHOD and MATERIAL as a reliable packaging for all types of export products which act like a sales representative of Thailand brands selling products that takes into account of sustainability for the world and create acceptance of Thailand products with Low Carbon Concept in the eyes of exporters.

TPN FlexPak Co., Ltd. is always committed to being a role model for Thailand industrial factories by further stepping into the Net Zero organization with a goal of being completed in 2065 and become an organization that does not release greenhouse gases into the environment which can save this world for greater mankind and create a reputation for Thailand.

Tel : +66 2 821 5677  
E-mail : info@hiveground.com  
Website : www.hiveground.com  
Facebook : facebook.com/hiveground

**HiveGround** is a pioneering agricultural technology company specializing in advanced sensors and robotic platforms. Its primary focus is on productivity enhancement, cost reduction, and safety in the agricultural sector. Its flagship product, the **TIGERDRONE**, is a crop protection drone designed for precision agriculture. Equipped with advanced sensors and powered by AI and machine learning, it provides real-time operational data and cumulative insights via its companion softwares for decision-making. Furthermore, The Company offer end-to-end robotic product development and customized project-based systems integration services.

Backed by leading investors such as SET, GSB, PTT, SCG and True Digital Group, The Company have secured funding from seed to Series B. The Company are committed to revolutionizing agriculture through innovative technology, striving for sustainability, efficiency, and profitability.

**Tigerdrone - TGD2** is designed to achieve the precision agriculture concept. This advanced drone operates autonomously and is capable of carrying a maximum payload of 25 kg. Its primary function is to deliver precise amounts of seeds and chemicals to crop fields. The drone is operated through a mobile ground control application that can wirelessly synchronize flight plans to the drone, and the actual flight data from the drone to a data analytic engine and fleet management cloud service. By utilizing previously gathered data, the cloud service generates suitable action plans aimed at maximizing crop yield while minimizing the need for chemicals. As a result, not only the users spend less time and financial resources but gain more quality and safer agricultural goods as well.
